SCORE VERIFICATION REQUEST

Fundamentals of Engineering / Land Surveying (FE / FLS)
Principles & Practice of Engineering / Land Surveying (PE / PLS)

April 2013

The score reported to you was a machine-read and tabulated result. Examinees requesting a score verification will have their answer sheets manually scored by NCEES. If your score does not change, then you will be notified only that your score has been verified. **No other information is provided.** You and the Board will be notified if the score verification results in an increase or decrease of your original reported score.

You may request score verification by completing the other side of this form. The score verification fee (for each examination) is listed next to the two-letter state code above. Fees will not be refunded for any reason. If you are paying by credit card you may either fax or mail this request to PCS. If you are paying with a certified check or money order (payable to Engineering Examination Services) you must mail your payment along with this request to PCS. All score verification requests must be received by July 19, 2013.

Your results will be mailed to you as soon as PCS receives them from NCEES. Results will not be given over the phone. Results are generally not available until after the re-exam registration deadline, so do not wait for your score verification results if you intend to register for the October 2013 examination. If the score verification changes your April 2013 score to a passing score, you will be given a full refund of your October 2013 registration.
